

Why PAM?

Helping you achieve your lifestyle and financial goals

PAM Financial Advisors comprise of a qualified team of skilled and experienced Financial Planners and support staff. As such we can provide you with friendly professional financial advice. We ensure that all aspects of your situation are considered and develop an individual financial plan to help you realise your lifestyle and financial goals.

We offer specialist advice and are able to provide the complete financial solution through relationships with other professional service organisations, or working with your existing professionals (i.e. Solicitors etc). Some of our specialty services include development and management of Self Managed Superannuation Funds (SMSF's) for our clients, expert advice on Centrelink issues and requirements and access to finance providers for both personal and business loans.

We pride ourselves on providing regular communication and ensuring that you are part of the process and ongoing decisions about your financial future. We are also proactive in our discovery of new opportunities.

Similar to our licensee, Securitor, we are big enough to offer complete solutions and therefore the confidence that you need, however we are small enough to care and build long-term relationships with our clients and their families.
